PROFESSIONAL SUMMARY

BS Computer Science student (Semester 6, UET Mardan) specializing in Full Stack Web Development and Mobile Application Development. Proficient in building responsive, database-driven web applications with PHP, MySQL, Bootstrap 5, and JavaScript, with hands-on experience in MVC architecture, CRUD systems, and authentication. Also experienced in cross-platform mobile development with Flutter, Firebase, and Dart. Independently designed, built, and deployed multiple real-world projects — management systems, task trackers, and mobile apps — all documented and hosted on GitHub. Actively seeking a web or software development internship to contribute to a professional team and grow as a developer.
