PROFESSIONAL SUMMARY

Computer Science undergraduate (Semester 7, UET Mardan) and full stack developer with experience in PHP, MySQL, JavaScript and Bootstrap 5, as well as React with TypeScript and Flutter. Delivered a live consultancy website for a UK client as sole developer and completed an 8-week remote Full Stack Developer internship at Codiora.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript, PHP, MySQL, Bootstrap 5, React, TypeScript, Vite, Tailwind CSS, CodeIgniter 4, WordPress, REST APIs, MVC Architecture

Mobile Development: Flutter, Dart, Firebase (Auth, Realtime Database), Stripe Payments, Hive, Biometric Auth, Google Maps

Programming Languages: PHP, JavaScript, TypeScript, Dart, Python, C++, C, SQL

Security & Practices: CSRF protection, PDO prepared statements, bcrypt hashing, session security, login throttling, secure file uploads, SPF/DMARC email authentication

Tools & Platforms: Git & GitHub, XAMPP, VS Code, Android Studio, phpMyAdmin, Postman, Playwright, Cisco Packet Tracer

INTERNSHIP EXPERIENCE

Full Stack Web Developer Intern — Codiora House (Private) Limited Remote | June 2026 – August 2026

- Designed and deployed a full Portfolio Management System with a secure admin dashboard, Chart.js analytics, messages inbox, notifications, file uploads, dark/light mode and accessibility compliance. Awarded a certificate of completion.

PROJECTS

CBAM Advisory Website — Real Client Project (UK) cbamadvisory.com

PHP 8, MySQL (PDO), JavaScript, HTML/CSS | Sole developer, delivered in about 4 weeks

- Designed, developed and deployed a custom consultancy website with a secure admin dashboard for managing enquiries.
- Developed an EU CBAM product-scope and importer-threshold checker in JavaScript, validated against 7 test cases.
- Implemented CSRF protection, login throttling, forced password change and email password reset; configured DNS, HTTPS, SPF/DMARC and hosting backups; authored client user documentation.

Portfolio Management Dashboard — Internship Final Project github.com/Rifaqajmal/Codiora-Internship

PHP 8, MySQL, Bootstrap 5, JavaScript, Chart.js

- Developed a full-stack admin dashboard with secure login, CRUD, dark/light mode, Chart.js analytics and a messages inbox.

Atmos — Immersive 3D Weather App github.com/Rifaqajmal/atmos-weather

React 18, TypeScript, Vite, React Three Fiber, Tailwind CSS, TanStack Query, Zustand, Recharts

- Built a 3D weather application that renders live OpenWeatherMap conditions as real-time scenes (rain, snow, thunder, fog, night), with hourly and daily forecasts, charts, air quality, city search and a command palette.

School Fee & Attendance System — Semester Project github.com/Rifaqajmal/school-fee-attendance-management-system

PHP, MySQL, Bootstrap 5, JavaScript

- Developed a nursery school management system covering students, teachers, fee vouchers with advance-balance handling, bulk fee generation, attendance, salaries and reports; designed an 8-table database with 249 sample student records.

LifeTrack — Birthday & Age Tracker App — Semester Project github.com/Rifaqajmal/LifeTrack-Updated

Flutter, Dart, Firebase

- Developed a mobile app with birthday countdown, age statistics, reminders and biometric lock; tested on a physical device.

Mike College Website — Personal Project github.com/Rifaqajmal/mike-college-website

PHP 8, MySQL, Bootstrap 5

- Developed a six-page college website with an admin CMS for faculty, announcements, gallery, contacts, departments and site settings; implemented secure uploads with MIME validation, CSRF protection, PDO and bcrypt.

Additional projects: Shop Rental Management System, TaskFlow, FoodieHub, FitZone Gym Website, Madrassa Al-Noor Website, NexusFile Pro (Python desktop file organizer, co-developed) and 16 Flutter coursework labs.

EDUCATION

BS Computer Science — University of Engineering & Technology (UET) Mardan, Pakistan Session 2023–2027

Currently in Semester 7

Languages: English, Urdu
