PROFESSIONAL SUMMARY

Motivated and passionate BS Computer Science student (Semester 6) at UET Mardan, specializing in Full Stack Web Development and Mobile Application Development. Proficient in building responsive, database-driven web applications using PHP, MySQL, Bootstrap 5, and JavaScript, with practical experience in MVC architecture, CRUD systems, and authentication. Also experienced in cross-platform mobile development using Flutter, Firebase, and Dart. Have independently developed and deployed multiple real-world projects including management systems, task trackers, and restaurant UIs — all hosted on GitHub. Strong problem-solving mindset, clean coding habits, and a passion for learning modern technologies. Actively seeking an internship opportunity in web or software development to apply academic knowledge, contribute to a professional team, and grow as a developer.

TECHNICAL SKILLS
